WELCOME TO VIRTUOSO DOORS

The perfect door for you...

Virtuoso are a leading UK manufacturer of high quality composite doors. With a 35 year history of innovation and design, we are committed to bringing you outstanding choice and service.

Our composite doors are manufactured utilising only the best components to create stylish, secure, reliable and durable doors. With the latest CNC machinery and CAD software the doors are precision built to exacting standards. Virtuoso doors offer a high level of security, with increased resistance to forced entry.

The Virtuoso door slab has reinforced GRP skins as standard and has passed the rigours of PAS24 in line with the Approved Document Q.

The 70mm lead free PVCu outer frames are fully reinforced for added strength and security. High security locks and fittings are used as standard on all Virtuoso doors, without compromise.

The 44mm composite door leaf is constructed with fibre glass skins for a beautiful timber-like appearance and a polyurethane core for greater thermal efficiency.

Our Virtuoso composite door has been designed to be beautiful, practical and easy to maintain. We have a multitude of unique door styles, decorative glass, hardware and colour options to compliment any home. No matter what your style of property, we have the door to suit.

Click through our Virtuoso Collection and start visualising your new dream door today...

YOUR VIRTUOSO COMPOSITE DOOR

Why choose a Virtuoso door?

High security, renowned quality and the largest range, the Virtuoso collection is the premium choice for the home owner. See below just a few benefits of the Virtuoso composite door.

GRP Composite Skins

Manufactured using grained, reinforced GRP skins, our industry-leading composite door slab is the closest in appearance to wood, but without the associated maintenance requirements.

Reglazeable Cassettes

The 3-part glazing system allows easy installation of the glass and easy replacement if your choice of glass design were to change.

Beautiful Decorative Glass

Our Virtuoso collection offers one of the widest ranges of traditional and contemporary glass designs, so our customers have infinite options for their front door.

Wide Range of Hardware

Our Virtuoso collection offers a large range of suited door handles, letterplates and door knockers available in multiple colour options. Some stainless steel upgrades are available.

Authenticity – Don't be fooled!

Excited by all the features in our brochure? You won't get all of these benefits on any other door but a Virtuoso door. All our doors carry an official label near the bottom hinge – do not accept anything but a genuine Virtuoso composite door!

* WANT A MATCHING FRAME?

All colours depicted with an asterisk (*) are available with a matching frame to the external.

See disclaimer below.

Due to the hand staining/painting process no colour match can be guaranteed between the coloured door leaf and the matching coloured external door frame.

GLAZING CONFIGURATION

Beautiful Decorative Glass Options

We have a huge range of decorative glass designs to suit your home.

GLAZING DESIGN NOTES

◀ TRIPLE GLAZED

The beautifully hand-assembled and soldered centre panes have the benefit of triple glazing preventing oxidisation or discolouring of the lead. The easy clean units also provide superior heat and sound insulation.

◀ RESIN BEVELS

Designs which are complex yet delicate, using the latest technology these unique designs cannot be reproduced by any other process.

◀ GLASS TILES

These designs incorporate either kiln fused glass tiles or sparkling clear bevels on a sandblasted effect base glass.

◀ SANDBLAST

Sandblasted glass is created using abrasives to create a frosted glass effect. Sandblasting can achieve both a traditional or contemporary look for your home. Visible lines are clear.

◀ LEAD & FILM *

This process incorporates self adhesive lead and colour film to replicate traditional stained glass designs.

See disclaimer below.

◀ GLASS BEVELS *

Incorporating hand-crafted glass bevels which are applied to the glass and finished with lead work.

See disclaimer below.

◀ GEORGIAN GRILL *

Our Georgian Grill is on the internal and external face of the door. Pick from one of our backing glass options to complement the door.

◀ DOUBLE GLAZED *

Commonly used in rear doors, our double glazed glass option achieves a simple but stylish look and helps maximise the amount of light in your home.

BACKING GLASS

Stippolyte

Minster

Cotswold

Contora

Digital

Charcoal

All glazing styles depicted with an asterisk (*) require a backing glass.

Lead is a natural product which when exposed to the environment will undergo certain atmospheric transformations such as oxidisation. This is perfectly natural and will eventually settle down to take on a natural weathered lead appearance.
